## **Here are some of our happy customers' comments:**

- I ordered this to replace a similar brace I had ordered before. The previous brace had Velcro straps that eventually got to where they no longer stuck down. This brace has Velcro also but once you get the size adjusted you use the clips to take it on and off which saves the Velcro. The clips make putting it on and off very easy. You can adjust the angle and the movement to whatever you need. Initially, when I received it I thought I had a right brace instead of a left. I contacted the seller and they helped me figure out how it works. I had it upside down. So far it works great for me and is fairly comfortable.

- "Full function with good products and Sparepart were sent".

Don't let knee pain hold you from living your life.

**With the NEENCA Knee Brace, you can:**

- Relieve knee pain
- Improve range of motion
- Recover from injury faster
